

PINKPAPER

Only PEPA

PEPA is the coin that will truly make you feel better every time you make a transaction. Inspired by the PEPE frog meme, PEPA aims to be everyone's favorite sister and has arrived to become the true queen of the Solana blockchain.

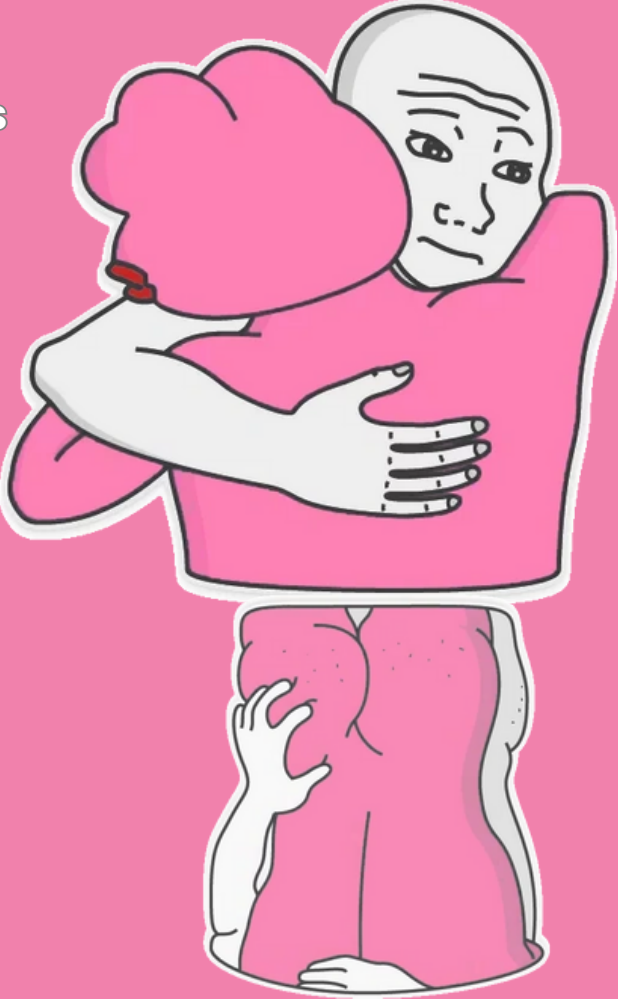

PEPA feels the Solana network like no other meme, known for its speed and efficiency (like you in bed). This technology allows PEPA to offer transactions that are so fast you can almost hear the users' screams of satisfaction.

Tokenomics

- **Total Supply:** Who counts the PEPA when you're in the middle of a wave of good vibes?
- **Distribution:** A lot for the community, another lot so that we all feel better, and a little to ensure that we will become the true meme destroyer of Solana. No, seriously, the entire supply is in the Raydium contract, fully locked and available to the community

A pink-toned illustration of a woman in a hijab, looking thoughtful with her hand to her chin. The background is a grid pattern with various cultural and economic symbols: a map, a hot air balloon, a newspaper, a pagoda, a cityscape, and a river. The overall theme is global connectivity and community.

Roadmap

- **Phase 1: Launch of PEPA to the world, accompanied by an arrival of memes.**
- **Phase 2: Make the whole community feel good and maintain it over time.**
- **Phase 3: Strategic alliances with the titans of the meme world.**
- **Phase 4: PEPA becomes the queen of Solana.**

We guarantee everyone's well-being by renouncing the liquidity contract on Raydium. No presales, no crazy fees. Only PEPA

PEPA is the favorite sister you always dreamed of, full of good vibes and that will make you feel better. Moreover, she is a bitch that came to stay.
